

Technical Education and
Air-end Management

Sullair TEAM Care

TEAM Care provides:

- Thorough equipment orientation with your staff on your compressor
- Monitoring your compressor performance by our technicians
- Easy access to our technical support

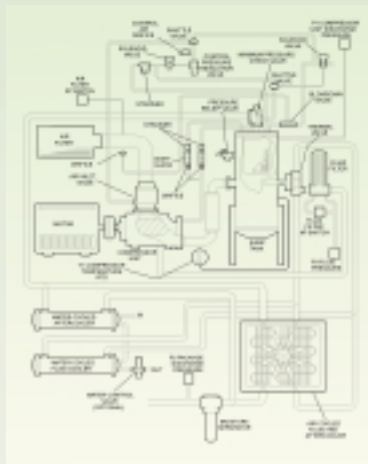

Sullair TEAM Care... Technician

We “TEAM” with you to achieve:

- Low cost air compressor maintenance.
- Improved reliability - Maximum uptime.
- Peace of mind of having 24-hour backup from our technicians.

Technical Education

Our factory-trained professionals take your company’s maintenance staff through a maintenance-specific program that gives them valuable training and understanding of:

- Routine Maintenance
- Fault Finding
- System Control

This means you look after your routine maintenance. And you’ll be able to troubleshoot your own equipment.

Often times, this is a service you would have to buy from others!

Technical Education **A**ir-end **M**anagement

Air-end Management

After completely training your staff, our role is Air-End Management.

Recognizing that the air-end is the most critical component of the compressor, we oversee it in several ways. Among them are:

- Condition Monitoring of the compressor air-end to help detect any failure that could cripple production.
- Lubricant Analysis to confirm the condition of the compressor fluid.

Sullair TEAM Care

Sullair TEAM Care is but one component of a Total Service Solution we are able to offer in partnership with Sullair Corporation. As a TEAM Care customer, you are kept up to date with all advances in the Sullair product range and proficiencies achieved throughout our service operations.
