Air & Gas Compressors

A Hitachi Group Company

- Oil Injected Rotary Screw Air Compressors 5 - 600 HP
- Single and Two Stage Compression
- Electronic Spiral Valve Variable Capacity Control
- Variable Speed Drive
- Oil Free Rotary Screw Compressors 100 - 350 HP
- Oil Free Scroll Compressors 5 - 40 HP
- Rotary Screw Vacuum Pumps

- Centrifugal T series Compressors 300 - 2300 HP
- Centrifugal F series Compressors Up to 118,000 CFM

- Simplex & Duplex Reciprocating Air Compressors
- Electric & Engine Drive Portable Air Compressors
- Rotary Screw Air Compressors

Quality. Our DNA

- High Pressure Compressors - 200 to 6000 psig

- Oil Free Process Gas Compressors

- Rotary Vane Vacuum Pumps
- Liquid Ring Vacuum Pumps

- N2-GEN® Series Nitrogen Generators

Compressed Air Energy Management Systems

SUPPORT 844.448.9797

patent pending Guaranteed Compressed Air Solutions

- Compressed Air & Vacuum Systems Energy Audits with Guarantee ROIs
- Turn-Key Project Implementations with Guaranteed ROIs
- Compressor Automation with Full SCADA Capabilities
- Pressure Flow Controllers
- Project Engineering, Consulting, and Management

- AirLogix® Allen-Bradley PLC Centrifugal Compressor Controls
- AirStarPD™ Allen-Bradley PLC Rotary Screw Controls
- AirMaster® Multiple Compressor Load Sharing Solutions
- AirView™ Compressed Air System Visualization

Air Treatment, Distribution & Pumping Systems

- Cycling and Non-Cycling Refrigerated Air Dryers
- Heated and Heatless Desiccant Dryers
- Filtration Systems
- Condensate Management Systems

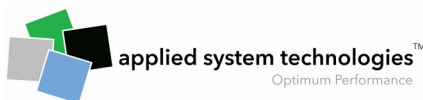

- Cycling and Non-Cycling Refrigerated Air Dryers
- Heated and Heatless Desiccant Dryers
- Filtration Systems
- Breathing Air Systems
- Aftercoolers

- No Air Loss Condensate Drain Valves
- Refrigerated, Desiccant, & Membrane Air Dryers
- Oil/Water Condensate Separators

- Sandpiper Air Operated Diaphragm Pumps
- Submersible Sump Pumps, Surge Suppressors
- Air Filters and Regulators

- Infinity & Elevation Compressed Air & Gas Piping Systems
- Flow Control & Drain Systems

- Aftercoolers & Oil Coolers
- Fluid Cooling - Air or Water Cooled

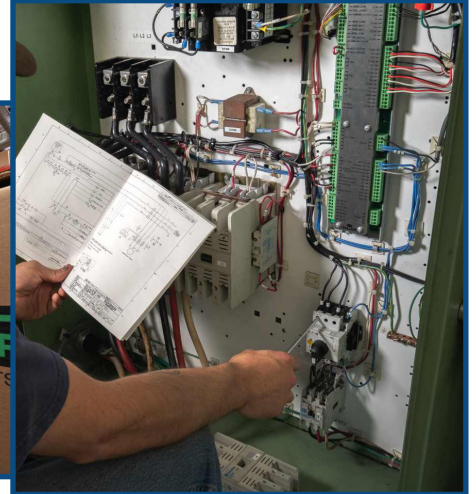

- Heavy Duty Pneumatic No Air Loss Demand Condensate Drains

Parts & Service for **ALL** Manufacturers

For over 35 years, Blake and Pendleton has been providing world class equipment, parts and service to industry leaders for their compressed air systems. Our experience and engineering expertise enables us to design, install, and maintain compression systems that are efficient and cost effective to operate.

We're Behind You All The Way. Blake and Pendleton offers the most reliable compressed air equipment in the industry as well as the most thorough responsive service.

We prove it 24 hours a day through our toll-free 24-7 hotline, 1-800-333-6650. Customers can call this number at any time of the day or night, seven days a week, to talk to a customer care representative.

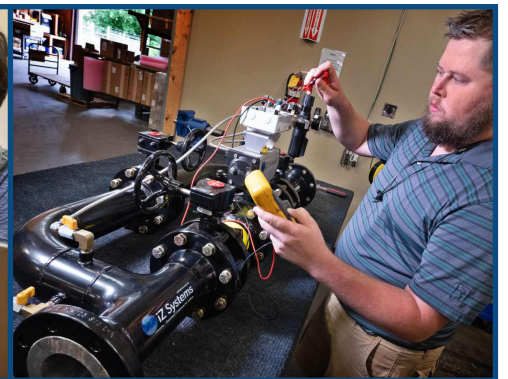

Air End Rebuilds and Fabrication Shop

Blake and Pendleton has an air end rebuild center capable of rebuilding **any** manufacturers' rotary screw air end. Our state-of-the-art shop facility also enables us to rebuild complete compressor packages as well as custom fabrication of systems to meet special applications. All equipment is tested for safety and ease of operation before shipment and installation.

Air Audits & Automation

Today, more than ever, reducing operating expenses is necessary for companies to compete and remain profitable. An air audit is conducted by our factory trained experts to improve efficiency and reduce costs of your operations. Significant financial savings are often achieved through system energy analysis, ultrasonic leak detection, contaminant analysis and dew point monitoring.

Rental and Leasing

Blake and Pendleton offers equipment rental and leasing. For emergency use we have available electric and diesel powered portables, rotary screw, centrifugal, oil-free compressors, refrigerated and desiccant air dryers, and after coolers. For new equipment and installations we offer customized leasing options.
