

Oil-Free Rotary Vane Vacuum Pumps

 **DEKKER**
VACUUM TECHNOLOGIES

duravane 

DEDICATED. DEPENDABLE. DYNAMIC. DEKKER®.

Dekker®: Designed to Deliver

At Dekker®, we're dedicated to providing **the most reliable vacuum products** with **world class lead times**, backed by service and support you can always depend on. That same desire to exceed expectations is built into every Dekker® Duravane® vacuum pump. Engineered for industrial applications that require rough vacuum solutions, the Duravane line of oil-free vacuum pumps offer constant and reliable vacuum, while being both clean, quiet and efficient. This makes the **Dekker® Duravane® oil-free series** the **ideal solution** for **a wide range of applications**

Rugged Build

The **Dekker® Duravane® oil-free series** is expertly engineered and built using the highest quality materials for maximum durability and strength. **High endurance graphite vanes** contribute to increased longevity while minimizing wear and tear, resulting in easy maintenance. The compact vacuum pump design, proven time and time again, is capable of **continuous operation** over the course of its lifetime in the most demanding application environments.

Efficient & Easy to Maintain

Longer maintenance intervals and simplified servicing are achieved through the modular layout and uncomplicated, efficient pump mechanism design. The oil-free design with minimal friction sliding graphite vanes not only maximizes vacuum levels but also **reduces overall lifecycle expenses**.

Clean & Cool

The **Dekker® Duravane® oil-free series** is a dry oil-free vacuum technology delivers a clean operation with no emissions and contamination for your process. Its **highly efficient** air cooled system also enables low operating temperatures, improving overall reliability.

Features

Highly Reliable:

The pump is designed using proven technology and built with industrial grade components.

Low Noise:

The low noise and vibration make the Duravane® ideal for applications where workers are present.

Clean Operation:

The Duravane® vacuum pumps ensures a clean operation free of emissions and no contamination to the process.

Easy Installation:

Due to it's compact, space saving design, the Dekker® Duravane® is easy to install and take up minimal space.

Minimal Maintenance:

Longer time between maintenance and ease of service due to the modular design and simple, efficient pump mechanism design.

DEDICATED. DEPENDABLE. DYNAMIC. DEKKER.

Service & Support

At Dekker® Vacuum Technologies, we are committed to optimizing your industrial processes and minimizing downtime. This means providing unrivaled customer service and support through the entire process, from helping you choose the ideal pump for your application to providing the maintenance needed to keep your business growing strong. To ensure the longest life cycle of your vacuum pumps, we highly encourage all our customers to follow the manufacturer maintenance recommendations and using genuine OEM Dekker® spare parts and oils.
